

Protecting Two Lives With One Smart AI App

An AI-powered companion that supports community midwives with smarter monitoring, faster action, and timely referrals.

The Problem

Every year, preventable pregnancy and childbirth complications claim the lives of mothers and newborns due to delayed risk recognition, limited care access, and inadequate support.

260,000 +
Maternal Deaths Yearly

2.4 Million +
Newborn Deaths Globally

15 Million +
Women Face Pregnancy Complications

(Sources : WHO , UNICEF)
